Build a reading brain

Abzilly decodable books combine the science of reading with fun and inclusive stories to make reading accessible *and* enjoyable.

Carefully structured books support decoding, fluency, and confidence—making reading effective in the classroom or at home.

**Transform
struggling readers
into book lovers!**

No matter whether someone is learning to sound out their first words or is facing reading challenges, Abzilly is there.

Open Alignment

Collection

The Open Alignment Collection was designed to align with a wide range of structured literacy scopes and sequences. In Stages 1a, 2a, and 3a, each book isolates a single new sound and tightly controls text to support first-time instruction. The corresponding *b* and *c* series provide targeted review.

Alphabet
Letter-Sounds

Stage 2

Consonant Cluster
Blends

Stage 3

Digraphs

Each stage is Easy as ABC

Series of 10 or more books
Each book contains 8 or 12 pages of text

Activate

Introduces one letter, sound, or concept per book. Can be used in an order aligned with various scopes and sequences.

Build

Progressively reviews previously learned concepts presented in the Activate series.

Consolidate

Consolidates the stage's skills and concepts from prior stages. Some books introduce one new high-frequency / low-decodability word.

Flexible & Robust

With its flexible structure you can map Abzilly's Open Alignment collection across multiple scopes and sequences including UFLI Foundations Lessons 5–53, covering early alphabet knowledge, consonant clusters and digraphs.

Dyslexia Association of Ontario
Award for *Literacy Leader of the Year*

What I love about Abzilly is that the earliest **books are tightly controlled for decodability, introducing only one new grapheme at a time.** Regardless of where a child is in their reading development, there will be an on-ramp into this series of books.

Diving into each Abzilly book is like stepping into a **world of whimsical animals and endless laughter!**
